## Summary

He's currently as an undergraduate student pursuing Double Bachelor's Degree in Information Systems (S.Kom) at ITB Stikom Bali & Information Technology (BIT (Hons)) at HELP University, Malaysia. As a student, I always try to myself step ahead and risking to try to pursue new things and challenges!

## Experience

### Web Developer

#### Mash Up R Japan

Oct 2022 - Present (7 months)

As a Website Developer at Mashup R, I was responsible for design, and develop websites of their products (MurSIM & Travel SIM). I also do brief maintenance of those websites to ensure that it runs and stays updated.

And to make it happen, The first step is to design the mockup for their website using Figma. The second step is to develop it using Wordpress CMS, Elementor as the main Website Builder and ACF for making custom fields for inserting and displaying custom post & data types.

### UI/UX Designer

#### BENDEGA

Oct 2021 - Present (1 year 7 months)

I've started to work here as an intern for a month and now as a part-time employee. My task that I'm currently manage are as follows:

1. Make a new website for them with their IT team using Figma as the main design tool and ReactJS as the main Front-end of the Website (Click here: [bendega.id](https://bendega.id)).
2. Joining various events and representing as Bendega at those events (Inkuri, CCL Changemakers)
3. Currently designing another website for one of their products with other members of the IT Team (Mangrove Reborn)

### Web Developer

#### Bali Mountain Retreat

Jul 2021 - Present (1 year 10 months)

One of my main tasks in Bali Mountain Retreat is as follows:

1. Redesign their previous incomplete website (As they stated before I got employed) to more "complete" looking website using Wordpress as the CMS, Elementor as the main Website Builder, Yoast SEO to ensure that the SEO is always up-to-date, and Litespeed Cache as the main acceleration plugin to make sure that the website is fast and responsive).
2. Maintaining their website to ensure that their website's content is updated.
3. Managing their Channel Manager (Cloudbeds) to ensure that the room prices, details, photos, and

etc are always updated across all travel online booking platforms.

### **Hackathon Team Member (ASEFSU23)**

Asia-Europe Foundation (ASEF)

Oct 2021 - Nov 2021 (2 months)

I got selected as a participant at an Online Hackathon Event called 23rd ASEF Summer University from Asia-Europe Foundation (Intergovernmental, Not-for-profit Organization). At the hackathon, I was assigned to the Bangladesh Team 4 and got a role as UI/UX Developer my tasks were as follows:

1. Making the website's wireframe and the sitemap of the business idea (Ekhane) using Miro as the main virtual collaboration platform.
2. Designing the website using Figma as the main design tool.
3. Making the site live using Angular.Js as the Front-end Javascript Framework and Tailwind as the Front-end UI Framework with the IT Team.
